

# GEMINI

## ONBOARDING INSTRUCTIONS

Before you begin, please have the following items on hand:

- a. Cell Phone
- b. Passport or ID Book/Card  
*(We do not suggest driver's license)*
- c. Laptop or Tablet *(optional)*

### Please note:

Do not use the same cell phone number or email address as someone else used (eg: family members should use a separate cell phone number and email address)

The instructions below are for **onboarding with a cell phone**, which is the easiest and recommended way to onboard. However, the same principles apply if you are using a laptop or tablet – however, you will still need your cell phone.

## Step 1: Download Authy App

Although this is not a requirement, we strongly recommend that you download the Authy app onto your cell phone. This app is used for Two-Factor Authentication (2FA) and increases security.

- If you already have the Authy app on your cell phone, please proceed to Step 2.
- If you do not have the Authy app, please download using the following link:

[www.authy.com/install](http://www.authy.com/install)

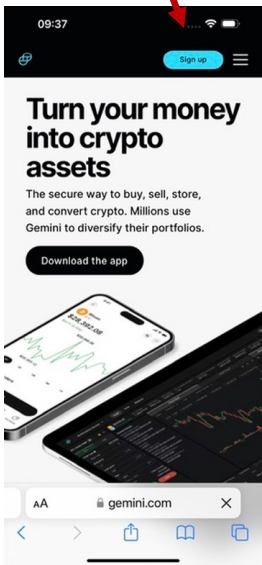

This option only appears if you previously had an Authy account linked to your current cell phone number. If you no longer have access to that account, you can choose to either delete the app and continue to Step 2 or you can link your account to your new device. This process takes 24 hours to complete.

- Once downloaded, create a master key, save it somewhere safe and then proceed to Step 2.

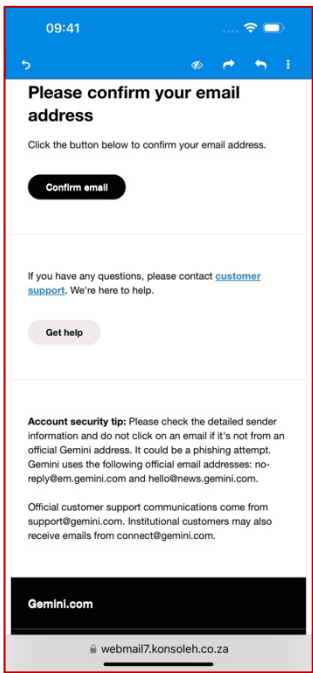

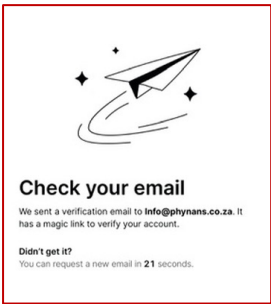

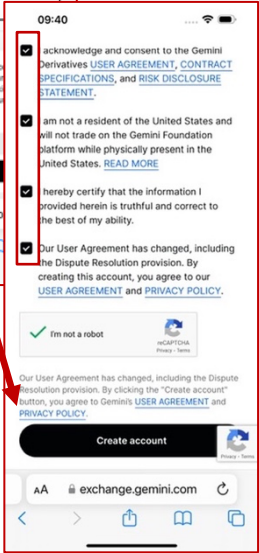

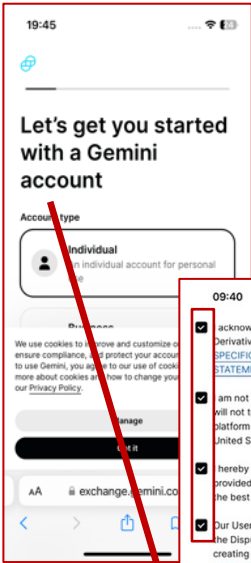

## Step 2: Onboarding

Preferably, in your cell phone's internet browser (Google Chrome, Safari etc), please go to [www.gemini.com](http://www.gemini.com) and follow these steps (no need to download the app):

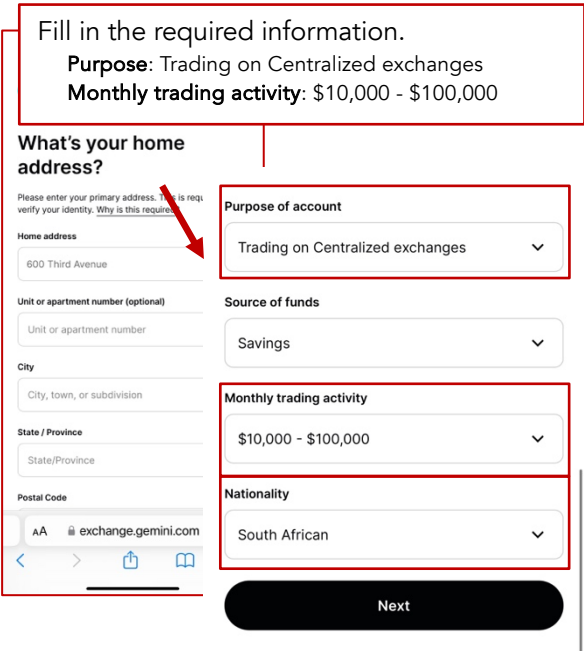

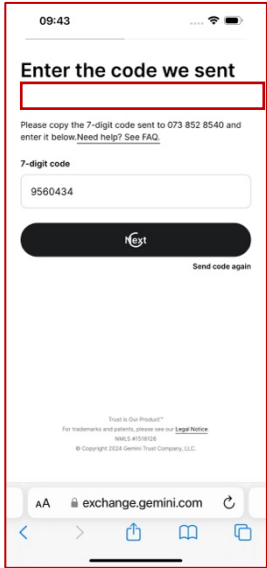

As you scroll down:

- Fill in the required information.
- Accept User agreement.
- Prove that you are not a robot
- Then select: **Create account**

You will be asked to either enter a PIN or Authy code

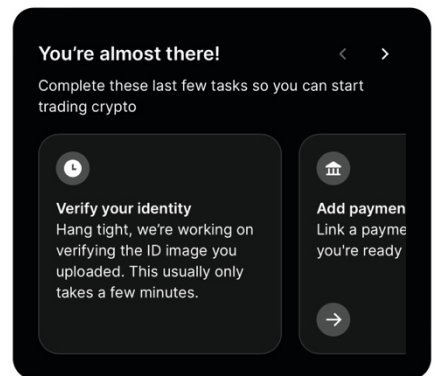

**Identity Verification** (the example below is using ID Card):

- Select ID Card or Passport (we do not suggest using Driver's License)

(If you are using a laptop for onboarding, you will have to keep your laptop open while verifying on your cell phone)

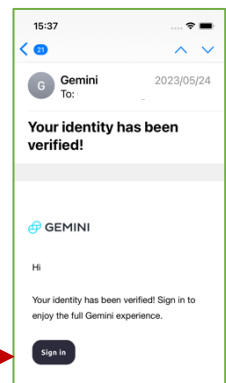

**Ignore this message**  
**Do not try Add Payment**

Go back to Email Inbox

Wait for the email:  
"Your identity has been verified"

This may take only a few minutes or several hours.

You may be asked for additional information. If so, please email this to them.

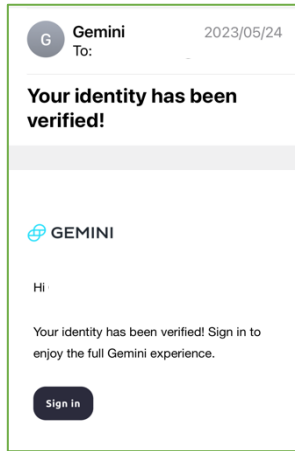

Sign in →

# Step 3: Configurations

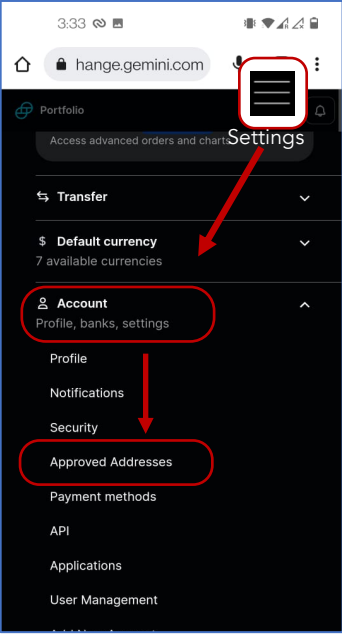

Please complete this step only after you have been verified

Sign back into your Gemini account  
(Preferably from the "Your identity has been verified" email link)

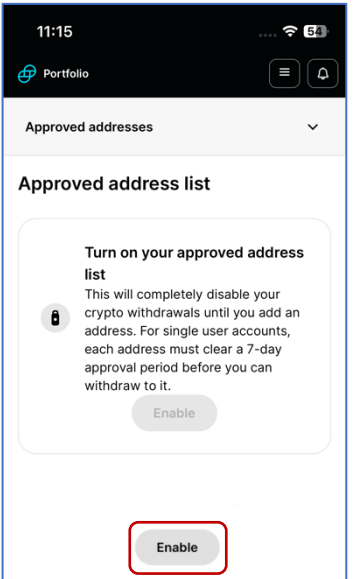

## 3.1 Setup Approved Addresses

- Select the menu icon: 
- Scroll Down...
- Select: **Account**
- Scroll Down...
- Select: **Approved Addresses**

- Select **Enable**

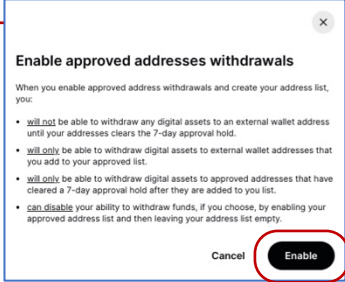

**Please Note:**  
If your Gemini only has **Add address**  
Then there is no need to select **Enable**.  
Please proceed to Step 3.2 Setup API.

• You may be required to enter a new authentication code.

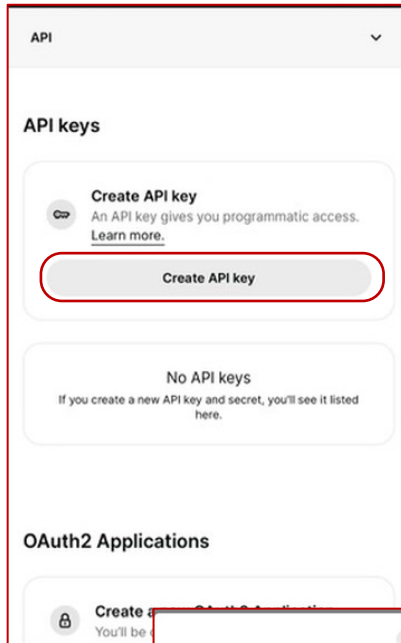

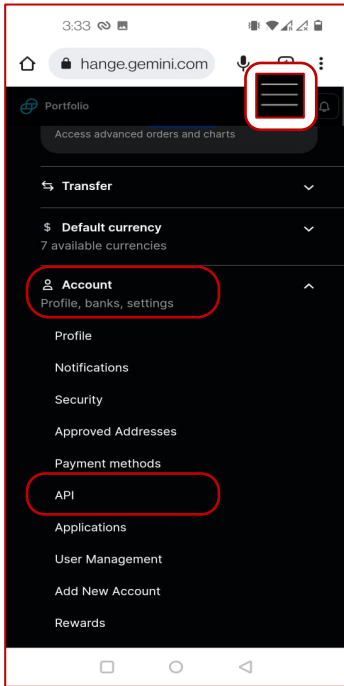

• Select **Enable**

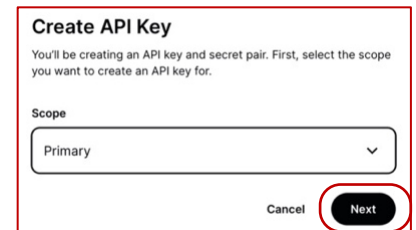

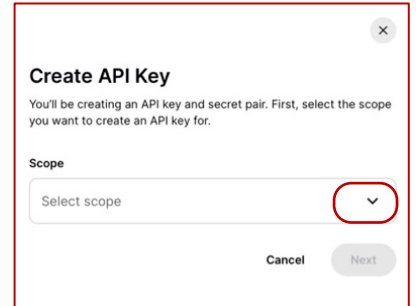

## 3.2 Setup API

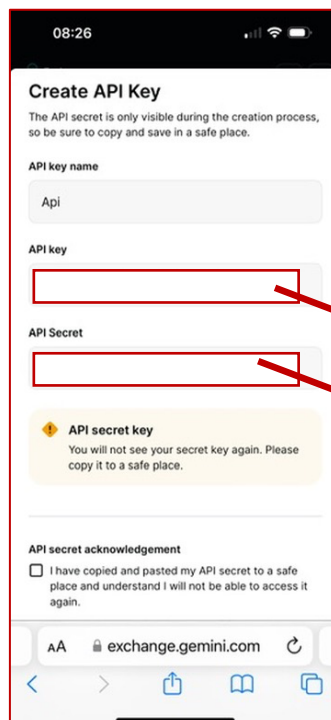

- Select the menu icon:  
Scroll Down...
- Select: **Account**  
Scroll Down...
- Select: **API**

- Select the dropdown under Scope
- Choose **Primary**
- Select **Next**

Give any name

Please copy/paste the following:

**API Key**  
**API Secret Key**

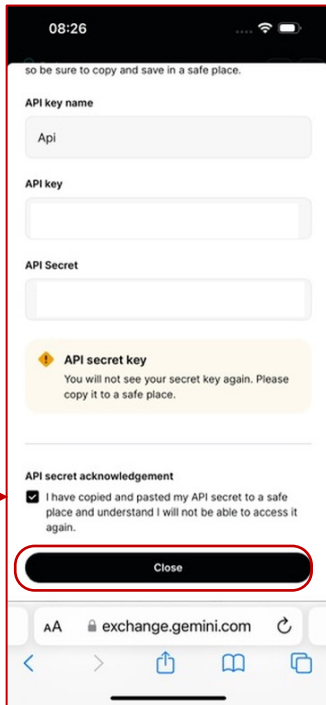

To:  
Telegram (@dooya) or  
WhatsApp (073 852 8540)

**Do not send a screenshot.**  
**Must copy/paste**

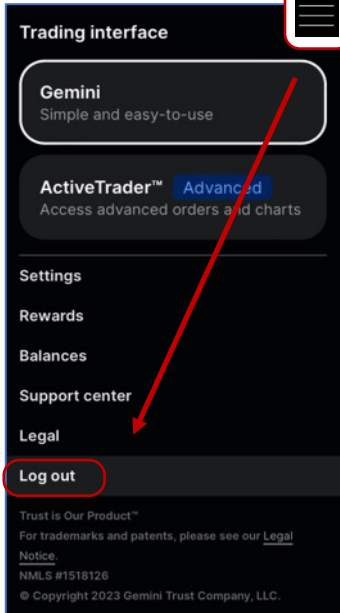

Copy API Key

Copy API Secret Key

## 4. Log Out

You will receive several more emails from Gemini mentioning that new addresses have been added to your account. No action is needed on your part.

If an email requests more information, please reply. (You are welcome to double check with us.)

You can turn off notifications by selecting:  
**[Menu/Account] [Settings]**
